# The Commerce Education-Industry Gap

## Present Market Scenario

- Professionals, employers & employees face challenges in complying with GST, ITR and others
- Lack of general awareness of complex statutory filing systems
- Traditional learning methodologies in commerce are time-consuming and may not provide opportunities for relevant practical learning
- Limited real-world practice solutions

## Solution

**SL Tech** Simulated Learning Technology

Bringing exact-work scenarios to the student desk, replicating real-life

- Nurture critical thinking & practical skills
- Bridge the gap between student life and professional life

**IL Tech** Interactive Learning Technology

Helps to understand theory better, through practice

- Making the learning & teaching process more engaging
- Collaborates practice with instant feedback using multi-modal learning tools

# Experiential, Cloud-Based & Revolutionary Learning

Nergy Vidya is the online platform of skill-based courses and technology tools for commerce education, enabled by Simulated and Interactive Learning Technology innovated by Nergy India, promoting upskilling, reskilling and cross-skilling.
